Detailed Action

Response to Amendment

1. Applicant's Remarks/Arguments filed on 7/12/2007 regarding claims 1-13, 24-29 have been fully considered. Claims 14-23 have been canceled by applicant.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The present application relates to communicating data between a base station system BSS and a serving GPRS system support node (SGSN), including the unique method steps of:

“wherein the user datagram protocol comprises a user datagram port associated with network service virtual connection (NS-VC) and the Internet Protocol provides an Internet Protocol address associated with a network service entity NSE.”

The closest prior art, Balazinski et al. (USP 6,711,143) discloses a system and method for interfacing between a BSS and a SGSN in which network service entity identifier NSEI is associated IP address and UDP port is associated with BSSGP virtual circuit BVCI. However, Balazinski fails to anticipate or render obvious the above quoted limitations. This renders it allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
